Whitworth College is located two and one-half miles north of the city limits of Spokane. It is fully accredited and is well equipped to meet the needs in the field of liberal arts and sciences. It is also able to give preparatory courses leading to engineering, law, medicine, nursing, or practically any other profession or business. It is equipped with strong departments in music and dramatics. Its teaching staff is composed of twenty-one men and women who have been trained in the best graduate schools of the country. Whitworth College is able to give personal attention to each student as there is one teacher for not more than ten students.

Before you select your college make an investigation of what Whitworth has to offer.

WHAT ACCREDITATION?

Whitworth College is fully accredited in the Northwest Association of Secondary and Higher Schools. Its graduates are admitted to the best graduate schools of the country; transfers may be made to other institutions on the same basis as students transferring from the leading institutions of higher learning. The American Medical Association approves the work offered at Whitworth College.

FULL PREPARATION FOR HIGH SCHOOL TEACHING

Whitworth College is also accredited with the State Board of Education for complete training of teachers for high school teaching in the State of Washington. Its graduates are also recognized by the State Boards of Education in other states of the Union.

JUNIOR AND SENIOR COLLEGE PROGRAMS

Primarily Whitworth College is a four year Liberal Arts and Science college but maintains in its curricula a junior college program. For those students who want to complete only two years of college, a background of general courses in the junior college years are offered. In the junior college program the major portion of the pre-professional training may be had, but additional pre-professional training in the senior college is required especially in medicine and law as the best law and medical colleges require more than two years pre-professional work.

Whitworth College offers special training to its students in definite vocations such as teaching, business, and civil service.

Courses in all these subjects will be outlined for students in conference with the Dean and the heads of the various departments.

ADMISSION REQUIREMENTS

Graduates of accredited high schools, who are in the upper three-fourths of the graduating class are admitted to full freshman standing. In special cases, students from the lower one-fourth of the class will be admitted on probation. Those not graduates of accredited high schools may gain admission for full freshman standing by passing the College Entrance Board Examinations.

The Debate Squad

DEVELOPMENT OF PERSONALITY AND LEADERSHIP

Whitworth College offers special opportunity in classroom and extra-curricular activities for development of personality and leadership. Under the direction of the head of the physical education department, there has been an adequate athletic program instituted at Whitworth College. Inter-collegiate competition is maintained with neighboring colleges in football, basketball, baseball, and tennis. Regular gym classes are held daily. The women students are organized into the Women's Athletic Association which sponsors a complete program of physical education and seasonal sports.

Other than athletics, extra-curricular activities of the students are directed along musical, religious, dramatic, and forensic lines. More than 25% of the student body regularly makes public performances in musical activities through glee club, quartets, and instrumental ensembles. There is a constant demand for the appearance of these groups in Spokane and throughout the Inland Empire.

Whitworth Builds Men

Volunteer Fellowship Group

The Volunteer Fellowship pictured above is a student religious organization composed of those interested in extending the Christian influence of Whitworth College beyond the bounds of the campus. Its activities are directed along three lines: council meetings with the youth leaders of Inland Empire communities, planned recreational programs under students specially trained for this work, and church services conducted by gospel teams of Volunteer Fellowship members.

Whitworth students have their own dramatic group known as the Whitworth Players which gives an opportunity to everyone who desires to express himself along dramatic lines. This organization produces four major plays a year and several one-act plays a month.

The debate squad has made an enviable record both in tournaments and single inter-collegiate debates. Forensic relations are held with colleges in the four northwestern states.

Tennis Squad

Whitworth College is recognized as one of the fine small colleges serving the high educational interests of the Northwest.

To the young men and young women who are seeking the best preparation for leadership in life's activities, an earnest invitation is extended to investigate Whitworth College.
